HUMAN CATCHER

You might not win the claw arcade game but you can definitely win an alluring prize when you are in the machine itself. This human catcher lets you be the claw in a giant version of a classic arcade game.

The players will be lifted into the air on a crane-like device as they are dipped into a pit full of tempting prizes such as plush toys, cute teddy bears, candies etc. You get strapped with the harness so that you can grab the loot as you hover over the prize pit.

SUSPENSION BRIDGE

A suspension bridge consists of a deck hung below the suspension cables on vertical suspenders. Several cables are set up across two or more towers to support the bulk of the bridge's weight and force.

These bridges are innovative, contemporary, robust and sophisticated among other types of bridges. Suspension bridge serves as a popular tourist attraction and is widely known for its stunning natural beauty and family-friendly activities. Our suspension bridges are avant-garde, light-weight, aesthetically pleasing and can cover long distances.
